PROFILE

Proficient Front-End Developer with expertise in React, JavaScript, HTML, and CSS, specializing in creating dynamic and responsive user interfaces. Experienced in utilizing modern libraries and frameworks to build efficient, user-friendly web applications. Adept at collaborating with cross-functional teams, optimizing web performance, and implementing best practices in frontend tech.

PROJECT

Food Recipe website

- Search Functionality: A powerful search feature to help users quickly find specific recipes or ingredients.
- Frontend: React.js for building a dynamic and responsive user interface.
- API Integration: Utilizes a food API to fetch recipe data and nutritional information in real-time.
- Data Fetching: React hooks and Axios for making API requests and handling data asynchronously.
- <https://food-reccipe.vercel.app/>

Music Player

- Music List: Displays a list of available songs for users to select and play.
- Basic Controls: Includes essential music controls such as play, pause, next song, previous song, and shuffle.
- Frontend: React.js for building a dynamic and responsive user interface.

E-commerce

- Built a simple e-commerce application using React and Redux.
- Focused on implementing an add-to-cart feature with efficient state management.
- Utilized Redux to handle global state for cart items and product selection.
- Demonstrated core concepts of Redux, including actions, reducers, and store management.
