

SUMMARY

Proficient Front-End Developer with expertise in React, JavaScript, HTML, and CSS, specializing in creating dynamic and responsive user interfaces. Experienced in utilizing modern libraries and frameworks to build efficient, user-friendly web applications. Adept at collaborating with cross-functional teams, optimizing web performance, and implementing best practices in frontend tech. Strong problem-solving skills and a passion for continuous learning in the evolving field of front-end development.

EDUCATION

Indira Gandhi University

Bachelor's Of Computer Application 2020 - 2023

Marks:- 1845/3000 (61.50%)

Saraswati Bal Mandir Sr. Sec. School

12th (Non-medical) 2019 - 2020

Marks:- 362/500 (72.4%)

SKILLS

- Languages:- HTML,CSS, JAVASCRIPT, Node Js, Express Js, MONGODB
- Framework & Library:- Bootstrap, Reactjs
- Version control:- Git & Github
- Deployment:- Vercel, render, Netlify
- Good communication skill

CERTIFICATIONS

- The MERN stack developer course covers MongoDB, Express.js, React, and Node.js, providing a comprehensive foundation for building full-stack web applications. Key topics include:
- MongoDB, Reactjs, Nodejs, Expressjs

PROJECTS

Food Recipe

- Search Functionality: A powerful search feature to help users quickly find specific recipes or ingredients.
- Frontend: React.js for building a dynamic and responsive user interface.
- API Integration: Utilizes a food API to fetch recipe data and nutritional information in real-time.
- Data Fetching: React hooks and Axios for making API requests and handling data asynchronously.
-  <https://food-reccipe.vercel.app/>

Portfolio

- Modern Design: A clean and responsive design that provides an excellent user experience across all devices.
- Integration with APIs: Fetching data dynamically using Axios to display the latest information on projects.
- Optimized Performance: Implementing best practices for performance optimization, including lazy loading and code splitting.
- Responsive Layout: Ensuring that the layout adapts seamlessly to various screen sizes and devices.
- Contact Form: A fully functional contact form using react-hook-form for efficient form handling and validation.
-  <https://pawantyagi-developer.vercel.app>

Musci Player

- Music List: Displays a list of available songs for users to select and play.
- Basic Controls: Includes essential music controls such as play, pause, next song, previous song, and shuffle.
- User-Friendly Interface: A clean and intuitive design that makes it easy for users to navigate and control their music playback.
- Responsive Design: Optimized for use on all devices, ensuring a consistent experience on desktops, tablets, and mobile phones.
- Frontend: React.js for building a dynamic and responsive user interface.
- Data Handling: Axios for fetching data from a JSON file, ensuring smooth and asynchronous data handling.
