

Summary

Enthusiastic and detail-oriented Frontend Developer Intern with hands-on experience in building responsive and user-friendly web applications. Skilled in React.js, Next.js, JavaScript, HTML, CSS, and Tailwind CSS, with a strong focus on creating clean, efficient, and reusable code. Familiar with state management (Context API/Redux) and integrating APIs for dynamic and real-time data handling. Eager to learn and adapt quickly, collaborate in Agile teams, and contribute to developing modern, interactive digital solutions.

My focus lies in crafting web applications that are not only responsive and scalable but also prioritize user experience, utilizing tools like Next.js, React.js, and state management frameworks such as Redux Toolkit and Context API. With practical experience gained from numerous real-world projects, I aim to develop high-performance interfaces that ensure smooth user interactions while adhering to the latest development standards.

Key Responsibilities:
I have created and sustained dynamic, responsive, and SEO-optimized web applications using Next.js. I developed reusable UI components and effectively managed state with Redux Toolkit and Context API. I worked closely with backend teams to integrate RESTful APIs, facilitating seamless data flow throughout the application. I ensured compatibility across different browsers and mobile responsiveness using HTML5, CSS3, Tailwind CSS, and JavaScript (ES6+). I implemented authentication, form validations, and secure data management for applications at the production level. Additionally, I utilized Git and GitHub for version control and actively participated in code reviews and agile practices.
Resolved issues, debugged, and improved application functionalities according to client needs and suggestions. Skills & Technologies Frontend Frameworks & Libraries: React.js, Next.js

Aii Qa Innovation

Frontend Developer Intern

Apr 2025 - Sep 2025

Gurugram, Haryana

As a Frontend Developer Intern, I contributed to building and optimizing user-friendly web interfaces by applying modern frontend technologies and best practices. I worked closely with senior developers and designers to translate UI/UX wireframes into functional, responsive, and interactive web applications. My role involved learning and implementing clean code, debugging issues, and gaining hands-on experience with real-world projects. Assisted in developing responsive web pages using HTML, CSS, JavaScript, and React.js. Implemented reusable components and state management with React Context API/Redux.
